

VK LOGIC

Automation Engineer or Mechatronic Engineer

We are looking to appoint an Automation Engineer or Mechatronic Engineer. Reporting to the Automation and Machine Safety Team Leader, this role is integral to allow VK Logic to deliver Automated solutions to our customers.

Working with trades, engineers and technicians to ensure activities are completed in a safe and efficient manner and conform to quality, time, cost and productivity requirements.

We are seeking a person with experience in automation software and hardware and preferably show knowledge and experience in safety systems and pneumatic systems.

Leading team members in projects and assisting in developing other team member's skills is a requirement for the position.

To be successful for the position you have the following skills and attributes:

- Knowledge PLC/SCADA systems
- Experience in electrical and automation installations, switchboards etc.
- Implementing changes, upgrades or modifications to existing systems.
- Be familiar with PLC's and setting up and maintaining Variable Speed Drives.
- Drawing software experience would be highly regarded.
- You will have strongly developed communication skills (verbal, written) and requirements.
- This role suits an energetic person who can work autonomously.
- Project Management experience
- Robotics experience highly regarded
- Automated industrial machinery design and implementation

Essential Criteria:

- A current Australian Driver Licence
- A strong commitment to WHS
- Compliance to Covid health requirements, including vaccination and testing as deemed necessary.

To succeed in this role, you will be a determined, driven, self-starter who actively seeks out opportunities to succeed and improve the reliability of the site and team members, whilst showing a strong sense of urgency.

On offer is the opportunity to advance your career in a fast growing and dynamic company that is locally owned and operated, excellent remuneration package and a great team environment that rewards you for your efforts.
