

VK LOGIC

MAINTENANCE FITTER

Based in Albury, VK Logic provides Integrated Automation, Electrical and Engineering Services. We are looking to appoint highly motivated and experienced Maintenance Fitter's to join our team. This role will be based in Howlong at the facility of a key customer.

Reporting to the Mechanical Team Leader you will be required to work on a rotating shift roster, with overtime on offer. Your main focus will be to carry out repairs and maintenance of equipment.

In addition, you will also be required to take a leading role in major overhauls, equipment modifications, and assist with projects requiring manufacturing of machined components. We are seeking a self-motivated person, wishing to upskill and share their experience and knowledge.

To be successful for this position you will have the following skills and attributes:

- Relevant Trade Qualifications
- Experienced in machining, minor fabrications and welding.
- Excellent mechanical aptitude and problem-solving skills required.
- Hydraulics pneumatics experience required.
- Drawing interpretation
- Ability to work well both within a team and autonomously.
- White Card.

Advantageous but not essential:

- TIG & MIG welding.
- High Risk Work Licences, WAH, EWP and Confined Space preferred.
- Experience in food processing facilities.

Essential Criteria

- A current Australian Driver Licence
- A current Forklift Licence
- A strong commitment to WHS
- Compliance to Covid health requirements, including vaccination and testing as deemed necessary

On offer is the opportunity to advance your career in a dynamic company that is locally owned and operated, excellent remuneration package and a great team environment that rewards you for your efforts.

To apply please email your resume to: hr@vklogic.com.au with the subject title "Fitter"
